

Work Experience Evaluation

This template includes standard indicators that Construction Youth Trust measures to evaluate all work experience placements. We encourage employers to adapt this template by considering the specific purpose of their work experience and including indicators that will help them to demonstrate the extent to which they achieved their aims.

For example, for work experience that is aimed at providing students with a specific role deep dive, employers may consider measuring whether young people felt they gained insight into a specific role or whether they are more confident they are well-suited to the role after completing the placement.

What is this form about?

We'd like to ask you some questions about the work experience placement you have completed and the difference it has made to you. This will help us to develop and improve our work experience in the future.

This form should take 5-10 minutes to complete, but you can take as long as you need. There are no right or wrong answers.

About you

1. Your name:

Your knowledge and perceptions
